

TO PROTECT AMERICANS

Stars and Stripes To Be Raised Over Them in Mexico.

U. S. CONSUL IN CHARGE

Precautions Taken in Case of Disorder Following Battle at Chihuahua.

Chihuahua, Mexico, June 29.—Precautionary measures have been taken here to prevent disorder in case of defeat in the expected battle between federal troops and rebels.

All Americans have arranged to gather together in one place in case disorders prevail here. The American flag will be raised and the American Consul will be in charge.

Ortiz (Federal Headquarters), June 29.—

With the entire rebel army fortified at Bachimba, fifty miles north of here, the federal strategists have mapped out a plan aimed to prevent a get-away by the rebels. It is believed here that there will be no fighting for at least three days. This time is needed to give the various detachments an opportunity to assume designated positions.

The federal advance guard has reached Consuelo, a few miles south of Bachimba.

Bachimba (Rebel Front), June 29.—What appears to have been a ruse on the part of the rebels puzzled the rebel leaders for a time to-day. Instead of advancing from Ortiz when the big bridge was completed, the federal columns adopted a dilatory course, moving troops back and forth as if experiencing difficulty in bringing their artillery ahead.

The rebels here are patiently awaiting the attack. General Fernandez, with 400 men, has been sent out of Bachimba, and may counter the federal outposts, numbering 500, at any moment.

IRISH PIPERS COMING

Richard Croker to Send Six to Panama Fair.

Dublin, June 29.—Richard Croker will send a party of six Irish pipers with their war pipes to the Panama-Pacific Exposition at San Francisco.

A few years ago the war pipes were practically unknown in Ireland. They were played, indeed, in portions of the North, but save for the presence of a very few pipers in Cork, Tipperary and Clare, some of them old men, the instrument was not known throughout the country. It had not been generally played for a couple of centuries. Now, however, pipers are to be numbered by the score, if not by the hundred, and pipe bands are springing up like mushrooms in the large towns, in the villages and in most unlikely places. They bid fair to displace the fife and drum and brass bands to as great an extent as the melodeon and the concertina have supplanted the fiddle and the Union pipes. Only in this case the change is hardly one which will cause any considerable sorrow or mean a loss to Irish music.

Mexico City, June 29.—An attack on Mr. Houricoutch, the Japanese Chargé d'Affaires here, became known when a formal complaint was made by him to the Governor of the federal district. Mr. Houricoutch was driving in one of the thoroughfares of the city, accompanied by his wife, when a crowd of hoodlums began to throw stones into the tonneau of his automobile. The chauffeur put on full speed, and the diplomat was not injured. The chauffeur received a deep scalp wound. A thorough investigation is to be made as to the offenders, and the reason for the affair will be asked from the police.

MANY TOURISTS IN ITALY

Mr. and Mrs. Austin, of New York, in Auto Accident.

Milan, June 29.—In the course of a tour through Italy Dr. and Mrs. H. Elliott, of New York, made a brief stay in Milan recently, putting up at Bertolini's Hotel de l'Europe.

Other New Yorkers stopping this week at Bertolini's include Miss Elizabeth C. Patterson, "Jack" Basely and E. J. Caldwell. Miss Marjorie W. Salmon, of Brooklyn, was also a guest of the hotel during the week.

Mr. and Mrs. A. Austin, of New York, who were motoring with some friends near Verona last week, were victims of a rather bad accident. Their chauffeur swerved to avoid collision with a cart with the result that the automobile overturned and all its occupants were thrown out. A passing automobilist took Mr. and Mrs. Austin to Verona in his car and their injuries were attended to at the hospital there.

Holiday-making Americans in Florence this week found considerable interest in a performance at the Verdi Theatre at which selections from the works of Paul Hastings Allen, the young American composer, were given under the direction of Signor Leopoldo Mugnone. Parts of Mr. Allen's symphony, which won him the Fadrewski prize, were rendered.

In the course of their holiday tour through Southern Europe, Mr. and Mrs. W. W. Anderson, who will be absent from their home in New York until late in the summer, reached Stresa this week. They are staying at the Grand Hotel des Iles des Borromées.

M. B. Blumenberg, proprietor of the "Musical Courier," of New York, is touring in Italy with Mrs. Blumenberg. They are making a stay of a few weeks at Rome.

AT THE SWISS RESORTS

Americans at Lucerne, Interlaken, Zermatt and Evian-les-Bains.

Lucerne, June 29.—The touring population of Switzerland is being added to day by day by holiday making and health seeking Americans. Among the recent arrivals in Lucerne are the following New Yorkers: Charles Lanier, Miss F. Redmond, Mrs. Edward and Miss Dorothy Luckenbach, Miss K. L. Lawrence, Miss E. P. Denny and Henry Weiner and family, all of whom are at the Hotel National. Dr. and Mrs. D. W. Hunter and Mrs. Arthur Bent are at the Palace Hotel, and Mr. and Mrs. Edwin Parsons at the Grand Hotel Tivoli. Mr. and Mrs. A. Page Wendall and Mr. and Mrs. W. W. Chase are at the Schweizerhof.

Mr. and Mrs. Josef Strinsky and Frederick P. Moore and family are at present at the Hotel Victoria and Jungfrau, Interlaken.

An excellent season is in prospect at Zermatt. All the hotels are now open and are filling rapidly. Among the New Yorkers recently arrived are Mr. and Mrs. Gresham Wells and Mr. and Mrs. E. Newman, who are at the Hotel du Mont Cervin. H. B. Lecken and Mr. and Mrs. J. G. Hughes, of Brooklyn, are at the same hotel. At Evian-les-Bains, on the French side of Lake Geneva, is an excellent golf links, and American players are in the majority. Philip Dear, of New York, joined the golf club this week for the season.

MRS. LEEDS'S FATHER GAINS.
Montclair, N. J., June 29 (Special).—The condition of William C. Stewart, father of Mrs. William B. Leeds, who is critically ill at the Leeds home, No. 203 South Mountain avenue, was slightly improved to-day, but he is not out of danger. Those in charge of the patient were non-committal as to whether his wife, from whom he is parted, had been summoned. It is said, however, that Mr. Stewart has no desire for a reconciliation.

ALL SHIPS TO REPORT WEATHER BY WIRELESS

Convention in London Agrees to Scheme Devised for Atlantic by American.

London, June 29.—The wireless convention has agreed to the scheme proposed by Willis L. Moore, chief of the United States Weather Bureau, that international action be taken making compulsory the reporting by wireless of the weather conditions experienced by liners on the Atlantic. By the general adoption of such a plan it is believed that the risk to life and property at sea will be reduced 50 per cent.

The idea is that wireless operators on steamers in the eastward half of the Atlantic relay their reports to London and those in the westward half to Washington. A close comparison of these reports by meteorological experts would make it possible to estimate the track and speed of storms and warn vessels.

In the opinion of Mr. Moore, the scheme will be in full operation within twelve months. He said to-day: "The convention has agreed that each nation shall select the ships it wants to take observations and each nation will pay for the transmission of messages. Under this international agreement the United States will secure observations and arrange for the transmission of reports. If the proposals are agreed to by the United States Congress—and there is every reason to believe that they will be so agreed to—the United States in a year's time will have a complete storm weather service in the Atlantic."

"I hope to arrange for the transmission of messages between the Weather Bureau at Washington and the London Meteorological Office. This is an idea I have had for some years, and I think the result will be a decrease in loss of life and property at sea by at least one-half, and at the same time reduce insurance rates. The United States Weather Bureau already utilizes the wireless facilities of thirty-two steamers plying between the United States, Bermuda and the West Indies, and when the service is extended across the width of the Atlantic I presume the British Meteorological Office will take up the work."

"On this side we give the benefit of our own storm weather service to the commerce of all nations, and in addition to the thirty-two West Indian steamers we maintain many observation stations in the Caribbean Sea. Even if no other nation joined us, the United States would go ahead with the Atlantic weather scheme for the protection of its own interests. I hope soon to see the system extended to the Pacific."

GERMAN AVIATOR KILLED

Military Aeroplane Taking Too Sharp a Curve Falls 750 Feet.

Mulhausen, June 29.—Herr Schadt, a German aviator, was killed here to-day while testing a military aeroplane. The aviator, flying at a height of 750 feet, made a curve too sharply, and the machine fell to the ground and crushed its occupant.

NEW AVIATION RECORD

Austrian, with Passenger, Makes Altitude of 13,779 Feet.

Vienna, June 29.—At the international aviation meet to-day the Austrian aviator, Csaky, whose real name is Miller, reached an altitude of 4,300 metres (approximately 13,779 feet). He carried a passenger. The last previous record was made by Prevost at Courmayeur, 5,840 feet. Roland G. Garros holds the individual height record of 13,943 feet.

TAX ON FAT PERSONS

French Town Adopts Novel Plan to Increase Its Revenue.

WOMEN MOST AFFECTED

Motor Car Bandits Kidnap Abbe and Steal Money Belonging to Church.

[From The Tribune's Correspondent.]
Paris, June 29.—A small French town in the Pyrenees district has struck a novel way to increase revenue from taxation. The ordinary channels not bringing enough to carry out certain projected improvements, the Municipal Council decided to place a tax on the physical weight of the citizens, arranging the following scheme: Below 135 pounds, no tax; from 135 to 200 pounds, 12 shillings annually is demanded; from 200 to 270 pounds, 18 shillings, and for all weights above this figure the tax increases at the rate of 24 shillings for each 30 pounds. Trouble came when the local authorities tried to collect the tribute. Most of the fat people formed a committee to appeal to the prefect, who represents the federal authority in the district. Thus a stay was gained. But it appears probable that the town could put into execution the new law if it should fight the case in the courts. Most of the opposition came from the women, who held meetings and torchlight processions to signify their opposition to the measure, which struck them harder than their husbands.

New motor car bandits are exciting the people of France. Their most notable exploit is the kidnapping of an abbe and the theft from the abbey of money and valuables worth nearly \$10,000. For nearly a week the disappearance of Abbe Piton, of Angers, exercised the French police. He has now reappeared at Lyons, 300 miles away, with a dismal story to tell.

A Kidnaped Cleric.

"I am the Abbe Piton," he said, walking into the Palais de Justice at Lyons last Wednesday. "Last Saturday night at Angers I was kidnapped by some men in a motor car, and it was not until last night that I was set down in this city." The abbe was accompanied by a monk belonging to a monastery in Lyons, who confirmed his story.

Experiments have been made with a new instrument, with the result that the "Marseillaise" played at Algiers, could be heard in Toulon by means of wireless telegraphy.

A curious situation has arisen in Algeria. For many months the inhabitants have solicited monetary help from the government for the purpose of remedying the persistent drought by the construction of irrigation canals. The funds have been actually voted for relieving the distressed situation of agriculture, but the money never reached Algeria. Now the whole population, tired of awaiting ministerial charity, has protested in disgust. The Mayor and the whole of the city councilors have resigned, and there is a general strike of all industries. Commercial men refuse to pay taxes unless the demands of the province receive attention. The presidents of the Chamber of Commerce and the Mercantile Club have absolutely declined to discuss the situation with the minister.

New Attraction in Paris.

It will be of interest to visitors to Paris to learn that the public is now allowed admission to the donjon, or keep, of the Chateau of Vincennes, which is about 150 feet in height, and the walls of which are nearly ten feet in thickness. A winding staircase, with twenty-seven steps leads up the five stories to the platform, from which a magnificent view is to be obtained, but it is, of course, the historic feature of this ancient building which is the great attraction.

It was as far back as 1164 that Louis VII conceived the project of building a royal residence at Vincennes, in the wood of which the earlier monarchs often hunted. Philippe Auguste and his successors improved and enlarged the chateau, in which many of them dwelt. It was afterward utilized as a state prison, and in 1790 the porcelain factory which was removed to

Sevres ten years later was established there. In 1788 Vincennes was ranged among the royal chateaux which were to be sold, but it did not find a buyer. Louis VII, Philippe V and Charles IV all died at Vincennes, and so did Henry V of England, as well as other monarchs.

NEW YORKERS IN GERMANY

Berlin and Baden-Baden the Favored Points for Tourists.

Berlin, June 29.—Among well known visitors from New York stopping at the Hotel Adlon this week are Putnam Griswold and Leo Slesak, of the Metropolitan Opera House. Curtis Guild, American Ambassador in St. Petersburg, has also been at the Adlon for a few days. Other New Yorkers in the German capital are Max Hessel, P. D. Wogener, F. Herrmann and family, Henry G. McComb, Mr. and Mrs. Edward M. Taylor, George Wesley and August Zinsener and family.

Americans at Baden-Baden this month are even more numerous than those in Berlin. Recent arrivals include Mrs. A. Balenberger and family, Mrs. William Toel, Mr. and Mrs. James Warburg, M. Attel, E. Kaufman, Mrs. and Miss M. Morrison, Mrs. C. R. Sweet, Mr. and Mrs. G. F. Victor, J. Glendelin, Mrs. J. Heilmann, Mrs. H. Sinsur, Mrs. E. Rehrick, Mrs. J. H. White and M. Lowenthal.

SEVERE FIGHT IN TRIPOLI

Turks Lose 200 Dead—Italians Killed 10, with 78 Wounded.

Rome, June 29.—Another severe battle at Tripoli on June 28 is described in an official dispatch received here to-night. According to the dispatch a whole division attacked the heights of Sidi Said and neighboring positions, where masses of Arabs and Turks who had escaped defeat the previous day were lying in deep entrenchments, reinforced by a heavy native contingent. All the Italian guns aided the attacking party from shore, and three warships bombarded the positions. Then two columns advanced for the assault, routing the enemy with repeated bayonet charges.

The Turks left two hundred dead and a large number of wounded on the field. The Italian forces captured great quantities of arms, ammunition and baggage. The Italian losses totaled ten dead and seventy-eight wounded. In the previous engagement the Italians lost twenty-nine killed.

AMERICANS FILL PARIS

"La Grande Semaine" Brings Usual Great Influx of Visitors.

RAIN OF GOLD FROM WEST

Many New Yorkers Touring French Provinces and Many Are at Vichy.

Paris, June 29.—When one sees the host of Americans that are making holiday in Paris during these June days it is difficult to imagine that there are as many, in fact, very many more, in London, and one marvels at the tremendous amount of American money that is being spent in Europe this year. In shops, theatres, restaurants, hotels—everywhere—there are Americans, and for elegance of dress and general savoir faire in the matter of spending the feminine element is almost Parisian of the Parisians. In the delightful freshness of the cool mornings in the Bois de Boulogne one sees many well known New Yorkers galloping along the riding paths and clearing the jumps, or motoring leisurely through the "Acacias" and other avenues. Certainly, smart Americans know how to use the best that Paris has to offer them.

Among well known New Yorkers here to enjoy the attractions of "la grande semaine" are Mr. and Mrs. H. W. Rogers, who have just arrived at the Hotel Brighton from Lausanne; Poulitney Bigelow and Miss Bigelow, who will make a brief stay at the Hotel Continental before departing for the summer resorts of the Austrian Alps; Mr. and Mrs. D. R. Dowell, who are at the Bedford; Phil Berlinger, at the Continental; S. Q. Manne, at the Grand; E. R. Wankels, at the Bellevue; Paul Narath, at the Regina; Mrs. L. Ross, Miss Louisa Hoyt, Miss F. Devol, Mrs. E. Case, Miss M. Bramwell, Mrs. Lucy Tate Griffith and Miss J. Mills.

TO HONOR "JACK" PHILLIPS

London, June 29.—"Jack" Phillips, the plucky wireless operator who stuck to his post on the Titanic and sent out the call for help that brought rescue to more than seven hundred souls, is to have a memorial erected in Godalming, his native town, and a movement to raise funds therefor is already under way.

The mayor of the town, E. Bridger, has issued an appeal for money to his fellow townsmen, and he is hopeful of a generous response, not only from them but from many of those whose lives were saved by the operator's devotion to duty. Subscriptions of money are invited from survivors on both sides of the water, and may be sent to the town clerk of Godalming, Surrey, England.

DIVINE TRAGEDY STAGED

Old Testament Scenes Reproduced by French at Nancy.

[By Cable to The Tribune.]
Paris, June 29.—"The Divine Tragedy," presenting in dramatic form scenes of the Old Testament written and set to music by the Abbé Petit, curate of Saint Joseph's, at Nancy, was produced yesterday at the open air Theatre of the Passion at Nancy, with great success before three thousand persons, who were most enthusiastic in their applause.

The stage setting was suggestive of the illuminated pages of a medieval Bible. The creation of light, accompanied by the sublime oratorio of Haydn; the creation of Adam and Eve, with a running commentary of Victor Hugo's poem; the deluge and Noah's ark, with stage music by Saint-Saëns, and the story of Joseph, with vivid musical accompaniments selected from the works of Mehl and of César Franck, were features superbly rendered and were received with ovations by the public.

Other highly effective passages were the idylls of Ruth and Boaz and of Rebecca and Isaac, enlivened by quaint chants and melodies discovered by French missionaries in monasteries of the Levant in 1900 and never before produced in Europe. The actors and actresses of the Passion Theatre at Nancy, like those of the Passion Play at Oberammergau, are peasants, and they play their parts with conviction and realism, causing a profound impression.

"The Divine Tragedy" occupies a whole day for the performance, and will be given fortnightly until the middle of October. The orchestra is composed of superb musicians, and the actors maintain an absolute impersonality, even their names not appearing on the programme.

ALLAN POLLOCK HERE.

Allan Pollock, an English actor who has appeared here in some of Charles Frohman's productions, arrived yesterday on the White Star liner Baltic after a trip through Portugal and Spain, where he attended many performances of native plays. It is said that he will produce several translations of the important Spanish and Portuguese plays he has recently seen.
